PROCEDURES FOR IMPLEMENTING SECTION 102 (2) (C)  
OF THE NATIONAL ENVIRONMENTAL POLICY ACT

1. The National Environmental Policy Act of 1969, hereinafter referred to as the Act, directs all Federal agencies to identify and develop methods and procedures which will insure that the environmental amenities and values are given appropriate consideration in decisionmaking, along with economic and technical considerations, and to prepare a detailed statement on major Federal actions that significantly affect the quality of the human environment.

2. Section 102 (2) (C) of the Act directs that a single official be responsible for the development of procedures to facilitate the review and consideration of agency actions affecting the environment, as well as for the preparation and submission of environmental impact statements. The Director of Logistics has been designated the responsible official for this Agency. Agency components are requested to consult with the Director of Logistics at an early date on any projects or contemplated actions which may have a significant adverse impact on the environment.
